

PastelCoin (\$NATA) — Whitepaper

1. Introduction

PastelCoin (\$NATA) is a memecoin born from culture, humour, and Web3 — inspired by the iconic pastel de nata, but baked for the entire crypto world.

Created with flavour and FOMO in mind, \$NATA blends meme culture with sweet irreverence. Portuguese by origin, borderless by nature.

This is more than a meme: it's a global experiment in decentralised pastry power.

2. Origins & Inspiration

Launched with zero VC funding and no corporate kitchen, PastelCoin began as a cultural statement wrapped in custard — but quickly grew into a global meme movement.

It's Web3 for pastry lovers, nata maximalists, meme collectors and crypto degenerates from Lisbon to Los Angeles.

No empty roadmaps or moon-pilled promises. Just one delicious idea, and the will to rise.

3. Tokenomics

- Total Supply: 1,000,000,000 \$NATA
- Symbol: NATA
- Network: Binance Smart Chain (BEP-20)
- Token Model: No burn. No tax. No pre-sale.
- Ownership: Currently retained by the creator for gradual project maturation.

All tokens were minted at launch. Liquidity evolves with the community — and adoption is as organic as our pastry crusts.

4. Roadmap

- Q1: Token creation & website launch
- Q2: Community growth, X presence, Telegram launch
- Q3: NFT drop & bakery partnerships
- Q4: \$NATA accepted in real pastelarias

More layers will be revealed as the pastry rises.

5. Team

We're doxxed in spirit, not in name.

PastelCoin is run by pseudonymous, pastry-powered personas:

- Dr. Nata – Founder & Chief Pastry Officer — @thepastelcoin
- Piping Coder – Dev Chef & Smart Contract Baker
- Dona Bica – Community & Memes Liaison

We believe transparency doesn't require faces — just flavour, consistency and public wallets.

6. Official Channels

- Website: <https://pastelarmy.github.io/PastelCoin>
- Twitter/X: @thepastelcoin
- Email: pastelcoin@proton.me
- Telegram & Discord: coming soon

7. Slogans

- Sabor luso, hype global.
- The pastel you can almost taste.
- Born local. Baked global.
- The pastel that escaped the bakery.

8. Disclaimer

PastelCoin is an experimental project created for cultural, humorous and educational purposes.

It does not promise financial returns, utility or investment value.
